ATTACHMENT A

Current Status of JMTIPX Project

Early approval of this project is anticipated pending policy decision on question of cover. It has been recommended by the [] that the proposed assistant to the principal agent from headquarters not be utilized for the reason that recent information indicates his cover would not be appropriate for his proposed assignment.

Operational planning continues for the establishment of the European link of JMTIPX and will be implemented as soon as proper clearances are obtained.

ATTACHMENT B

STATUS OF DTROBALO CASES
As of 30 September 1953

1. ADZHELEV, Michail: Subject has been returned to DTROBALO after being discharged from the Corosal Hospital. Investigations are under way to secure medical clearance for his return to the resettlement program.
2. BARNA, Pali: No improvement at the Corosal Hospital. Medical comment is that BARNA will probably be an institutional case for the rest of his life.
3. BODIS, Janos: Still worrying over his health, family and future. Subject has found some outlet for his disturbed state of mind in recreational activity.
4. BYCHAKOV, Genadij: Subject is cooperating well and is improving his typing and language ability. DTROBALO is awaiting reply to memo dated 30 September 1953 to Chief, HQM, recommending his return to Europe.
5. CHAKALOV, Vladimir: Subject and wife are still proving difficult cases to handle. The actions and attitudes of both continue to support the opinion that they are poor resettlement risks.
6. DALTIN, Victor: Subject is under constant nervous strain, despite this he is very cooperative, and an excellent student.
7. EXPLOSIVE I: Subject is making slow but sure progress in English and Spanish. Is uncomplaining with his lot.
8. IPRISOV, Gariv: Probably the only trainees on the base for whom this program was originally planned. This family is working hard preparing themselves for a new life.
9. KELLY, Lyle: Subject is disliked by most of the other trainees. He still has no word from Karapides in Venezuela.
10. KOSINSKI, Vladimir: Working as library assistant. Generally a cooperative and industrious student.
11. MICHALEWSKI, Tadeusz: Daily becomes more depressed at not being resettled. Can be one of the first to be processed and resettled when a system becomes available.
12. POPOV, Anton: Subject is complaining about feeling sick. He is still held in detention because of the effect of his presence on the other trainees. DTROBALO is awaiting an answer to memorandum of 10 August 1953 to Chief, HQM, recommending his return to Europe. Meetings have been held with the originating Division but a solution of the problem has not been forthcoming.
